Edison Asks 9.6% Boost

Increased costs and expenditures in almost every phase of doing business have forced Southern California Edison Company to ask Public Utilities Commission approval of a 9.6% rate increase - the first hike the company has sought in 11 years.

The proposed increase would provide an estimated \$60 million annually to support financing of the tremendous investments in plant required to keep pace with the increasing electricity demands anticipated in the company's service territory, according to Jack K. Horton, Edison board chairman and chief executive officer.

Horton was quick to point out, however, that Edison has reduced rates several times in the past 11 years, reductions which have benefited its customers by more than \$39 million annually on the basis of the current level of sales.

"HAPPINESS IS" -- A new Town Center. The fulfillment and joy experienced by Upland's town officials and merchants is reflected in the happy smiles seen above as local officials pose with visiting mayors and county officials following the dedication ceremonies Saturday afternoon at the central Kiosk. The dedication ceremonies marked the end of the three day Grand Opening celebration which began Thursday night, June 27.

Drive In, Restaurant? Planners Ponder Issue

A Taco Lita on Foothill Boulevard, a design change for a proposed trailer court and a General Plan Amendment were main issues at a recent Upland Planning Commission meeting.

Two Pomona men appeared before the commission at a hearing requesting permission to erect a Taco Lita on Foothill Boulevard, between the existing McDonald's Drive-In and Beloud's Building.

Questions arose when the men making the request specified that the Taco Lita would be a family type restaurant as opposed to a Drive-In. If family type, the planning commission could approve the request, as the area is already zoned for type C-4. Because of the question as to just what type of establishment was proposed, the commission voted to wait and study the matter further. A conditional use permit could be issued for a drive-in, but only on the approval of the city council.

The proposed Taco Lita met with opposition when more than 45 residents in the area signed a petition stating that they were opposed to having a Taco Lita built on the particular spot.

Minor opposition, mostly in the form of questions from area residents was met by the firm which plans to erect a mobile home park in an area on the west side of the County Flood Control Channel and between 14th Street and Foothill Boulevard.

The request made by the firm calls for changes in the street plans, primarily in the design of streets... changes which would make the area more attractive. The commission recommended approval of the request.

On the request of the city council, the planning commission studied a general plan amendment on the land area lying north of 16th Street south of 24th Street, east of San Antonio and west of Euclid. After review and study of the area and the zoning in the area, the commission voted by a slim margin not to make any zone changes in that area.

The area is presently zoned R 1A, R 1B and Agricultural and reflects a density of 0-4 residents per acre. Lots in the area must be a minimum of 20,000 square feet for R 1A and a minimum of 15,000 square feet for R 1B.

Earl McAuley had requested the city council to rezone 10 acres on the south side of 17th Street between Coolcrest Avenue and Mulberry Avenue from R 1A to R 1C. His request was denied.

Seen with the "Lucky lady" are from the left, Charles Barr, Mrs. Zella Stone, James Christensen and John Meyer. The man between Christensen and Meyer is unidentified.

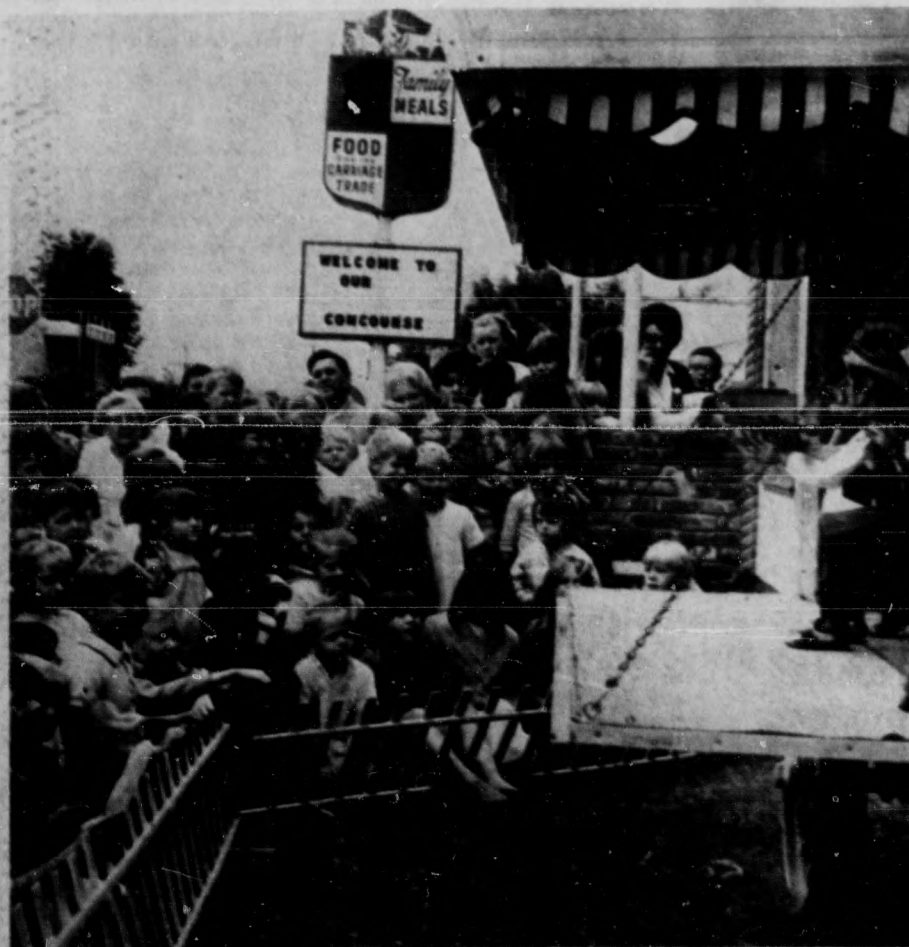

PTA Asks Cooperation On Movie Parking

Foothill Council PTA, at the request of the Upland Police Department asks all parents of children attending the summer movie program at the Grove Theatre to arrange to pick up their children at one of two parking lots.

Because of concourse congestion caused by vehicles picking up children in front of the movie house at 3 o'clock, the police department has arranged to have a policeman on duty to guide the

children across the streets to either the parking lot east on Third Avenue and Ninth Street or north to the lot on the west side of Third between Ninth and Third.

Cars will not be allowed to stop in front of the theatre to pick up or discharge children. Parents may park and walk to the Grove Theatre to pick up children if they wish. The movie is completed promptly at three o'clock.

He was a member of the Tujunga Rotary club, on the board of directors of the United Way, president of the Sunland-Tujunga Coordinating council and served on the Youth Employment service. He was an appointee of Gov. Brown in 1960 to a White House conference

on Children and Youth. Outstanding records of community service and strong church leadership have marked the career of the new minister.

He is a graduate of Drew university and Drew Theological seminary and served churches in New York before coming west in 1949.

At the Glendale First Methodist church he served as minister of the Vermont Avenue and an-

Summer Movie Program Proves Sell-Out Success

THE YOUNG MOVIE SET -- in Upland, enjoy Foothill Council PTA sponsored movies every Tuesday and Thursday at the local theatre. The shows are screened by the council and shown in cooperation with the theatre management. Parents are asked to pick their children up at 3 p.m. at two local parking lots, to avoid traffic congestion on the new concourse.

One of Upland's most popular summer programs for children is the Tuesday and Thursday selected movie showings at the Grove Theatre on Ninth Street. Sponsored by the Foothill Council PTA and with the cooperation of Jay Morris, theatre owner, 1,500 tickets were sold to school children this year allowing each child 12 admissions to afternoon movies.

Doors open at 11:45 a.m. and the film time is from 12:30 to 3 p.m. Only adults accompanying children are allowed in the theatre and PTA members supervise the approximately 750 children present each day.

The same film is shown on Tuesday and Thursday and does not correspond with the movies listed outside on the marquee. The children's movies are those submitted to the

PTA councils by Morris, and approved by them for showing to the children.

Morris commented this week, "One of the biggest problems is the effort involved in keeping the movie house clear of debris." He said he had asked the children to cooperate and pointed out two special containers used for refuse during the afternoon showings. Morris also commented that he was very pleased by the children's response to his requests for neatness and intimidated that next year he might open the movie house three days a week. This would allow for a greater sale of \$2. tickets to children who could not purchase one this year because of the limited supply. Morris feels 750 children each afternoon is a capacity crowd.

Foothill Council PTA SUMMER MOVIE SCHEDULE

July 2 and 4, "Fluffy"; July 9 and 11, "Good Times"; July 16 and 18, "The Nutty Professor"; July 23 and 25, "The Endless Summer"; July 30 and Aug. 1, "Night of the Grizzly"; Aug. 6 and 8, "Birds Do It"; Aug. 13 and 15, "Tarzan and the Great River"; Aug. 20 and 22, "The Singing Nun"; Aug. 27 and 29, "These Fantastic Fools"; Sept. 3 and 5, "Reluctant Astronaut".

Update your driving skills, advises National Automobile Club.

Another banner year for the city's summer recreation program is predicted by Assistant Recreation Director Dan Milakovich.

Jehovah's Witnesses Will Attend July Assembly In San Bernardino

Jehovah's Witnesses in Upland and surrounding areas are making arrangements to attend a four-day assembly in San Bernardino, July 18 through 21. Announcement was made by Edward F. Liesmer, presiding minister of the local congregation.

According to Liesmer, arrangements have been made to hold similar gatherings in 46 North American cities, including Hawaii and about 23 more in the British Isles, Canada and the Caribbean area. Seven of these assemblies are scheduled for California.

Local arrangements are under way to help each member of the congregation attend an assembly in the city of their choice. It is expected that most of the Witnesses in this area will go to San

Bernardino. About 12,000 are expected at the four-day bi-lingual gathering which will be held at the National Organ: Show, Swing Auditorium for English sessions and the Commercial Auditorium for Spanish-speaking delegates.

William Couch of Los Angeles has been appointed to manage the Southland gathering, which will be known as the "Good News for All the Nations" District Assembly of Jehovah's Witnesses, and will be sponsored by the Watchtower Bible and Tract Society of New York. "Whole families will benefit from the assembly program," Couch stated. There will be counsel and help for young and old in the form of constructive discourses, Demonstrations and Biblical dramas.

FAIR EXCHANGE -- Cucamonga Community Center chairman Paul Lucifora, trapped in his own "den" (shoe repair shop) on Archibald by Lions Harold Anderson and Ray Derfer, buys a ticket to the annual Bar-B-Q scheduled for July 13 at Upland Memorial Park. Church Expansion Plans Under Way

The first phase of an expansion plan for the Cucamonga Community United Methodist Church is under way with the commission of architect Howard E. Welling to begin drawings of a master plan which will beautify grounds and improve Church Street.

A parking lot, recreation area, ball diamond, sign and site work for future buildings are included in the development.

A fund-raising program will soon begin to construct a new social hall and church school building. The existing church building has been a landmark for 60 years.

Kiwanians Hear Korean Culture

Howard Kim, Cucamonga School District teacher, was the special guest at the June 20 Alta Loma-Cucamonga Kiwanis Ladies Day meeting.

In his program, "Culture of the East," Mr. Kim, a native of Korea who has been in the United States since 1964, told Kiwanians of his escape from Communist Korea. He also outlined the influence of the Chinese and Japanese on the Korean nation.

On Thursday, delegates will leave Ontario airport on the first leg of their journey to the Kiwanis convention in Quebec, and Inter club Greater Pomona will be hosted at the regular luncheon meeting.

West End Symphony Plans Seasons First Concert

The "voice" of "My Fair Lady" will perform in Upland with the West End Symphony orchestra on October 19. The Orchestra Association has announced that Marni Nixon, the "ghost" singer for Audrey Hepburn in "My Fair Lady," for Deborah Kerr in "The King and I," and for Natalie Wood in "West Side Story," will be the featured artist at the Symphony's first subscription concert of the 1968-69 season. Season tickets for the four-concert series are now on sale.

Miss Nixon's outstanding performances off-camera won her the title of "The Ghost with the Mostest." In a Time magazine article on her career, she made her debut on-camera as Sister Sophia in the motion picture, "The Sound of Music," and appeared as Elizabeth Doolittle in New York City Center's revival of "My Fair Lady." An astonishingly versatile artist, Marni Nixon has also appeared in classical operas and won acclaim for two premieres with Leonard Bernstein and the New York Philharmonic. She will appear with Conductor William Steinberg at Hollywood Bowl this summer.

Born in Altadena, Miss Nixon began her singing career at the Pomona

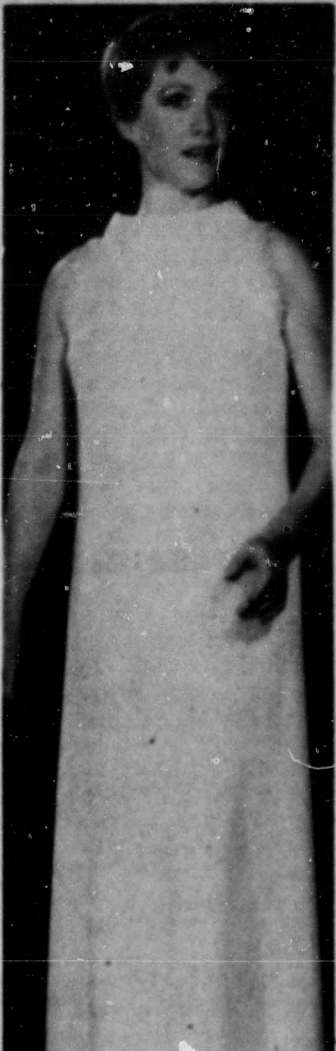

Fair, where she won a talent contest by singing "The Blue Danube." In her teens her unusual "after school job" was appearing in major Pasadena Playhouse productions.

The remaining three subscription concerts for the coming season have also been scheduled by Orchestra Conductor Robert Cole. On December 7, the winner of the West End Symphony's First Annual Young Artists Competition will be featured with guest conductor Zigmunt Darzell. Details on this contest will be announced in the near future.

On March 15, Peter Hewitt, pianist, will be the featured artist, and on April 26, the Orchestra will present an all-symphonic program.

In addition to the regular subscription season, the Orchestra will present two "Carousel Concerts" for children on January 30, 1969, at Chaffey High School auditorium and will, for the first time, present two "Kinderconcerts" for very young children in February.

Further information and season tickets may be obtained by calling the Symphony office at 984-8177 or Mrs. Harvey Wood at 984-1506.

MARNI NIXON--will appear with the West End Symphony Orchestra on October 12. Season tickets for the four concert series are now on sale.

LAW IN THE NEWS

A SERVICE OF THE STATE BAR OF CALIFORNIA

Are proposed laws and recommendations of Congress to protect the American consumer "paper tiger" solutions?

The 25,000 member American Trial Lawyers Association, noting the lack of strict enforcement in consumer bills, answers with a resounding yes.

And, in an attempt to add "teeth" for the health safety and pocketbook protection of the consumer through up-to-date knowledge of consumer

law and proper courtroom procedure, the ATL will discuss the problems facing the American consumer at a unique teaching seminar for attorneys May 24-25 at the Olympic Hotel, Seattle, Wash.

Nine of the nation's foremost trial lawyers and law school professors will explain the complex and rapidly expanding area of products liability law and its effect on millions of Americans, from the shoppers and local merchants to the

manufacturers. The two-day non-profit seminar is planned to make the public more aware of product and industrial liability and to improve legal representation in consumer interests by covering the latest developments in legislation and the fundamental change toward a wide range of consumer interest.

The seminar's teaching faculty will provide an in-depth analysis of safety information, probe

the legal aspects of negligence and breach of warranty and mislabeling, and pinpoint the law's responsibilities toward both the consumer and to the merchants.

Specific consumer protection cases on food and beverage products, drugs and cosmetics, household items and appliances, clothing and automobiles will be critically examined to explain more effective methods of representing the consumer in court action.

The attending attorneys will have the chance to question directly the faculty members on their recommendations and solutions to the problems offered at the seminar.

ATL National President Samuel Langerman of Phoenix, Ariz., commenting on the seminar, noted that "the legal profession must take action on the new consumer legislation and bring the power of the courts to bear on negligent manufacturing to make the home and office safe, and to get a fair deal in the marketplace."

The nine-member faculty for the seminar include: Dean John W. Wade of the Vanderbilt University School of Law, Nashville, Tenn., a renowned law professor and speaker as well as an advisor to the Reporter of the Restatement of Torts, and a Commissioner of Uniform State Laws; Prof. Thomas F. Lambert of Boston, Mass., editor of the American Trial Lawyers Association Newsletter; Dean A. Robb of Detroit, Mich., former ATL Governor and co-chairman of the ATL safety Committee as well as co-author of Lawyer's Reference Desk; Prof. William Schwartz of Boston University Law School, Boston, Mass., scholar and teacher in addition to Managing Editor of the American Trial Lawyers Association.

Also, Lee S. Kreindler of New York, N.Y., associate editor in aviation law and chairman of the ATL Aviation Law Section; Prof. Cornelius John Peck of the University of Washington School of Law, Seattle, Wash., formerly with the National Labor Relations Board and the Department of Justice who has specialized as a teacher in the areas of torts and labor law; Alfred S. Julien of New York, N.Y., former ATL President and one of the outstanding members of the New Trial Bar; Edward M. Swartz of Boston, Mass., associate chairman of the ATL National Seminar Committee and widely-known author and lecturer on products liability law; Prof. James W. Jeans of the University of Missouri School of Law, Kansas City, Mo., a former leading trial attorney who has been active in the ATL.

Leon Wolfstone of Seattle, Wash., Chairman of the ATL National Seminar Committee for Continuing Legal Education, will be program moderator.

YOUR CONGRESS

Representative Jerry Pettis, R-Loma Linda, released this statement following the attempted assassination of Senator Robert F. Kennedy.

"This grim and shocking tragedy once again reflects the terrible epidemic of violence that grips our nation.

"Each one of these senseless acts of terror further weakens the very foundation of our society — the respect for law and order and of human rights and dignity.

"The shots that changed the cheers to tears at the crowded Ambassador Hotel in Los Angeles are echoing through the halls of Congress, Representatives and Senators I have talked to feel Congress, itself, must re-examine its program to provide a 'vaccine' against this disease of violence.

"I intend to remain in the forefront of this fight for return to constitutional law and order."

CP Student Named State Chairman Academic Affairs

POMONA - For the second consecutive year a Cal Poly Pomona student will serve as chairman of the statewide Academic Affairs Assembly of the California State College Student Presidents Association.

Ian C. Brodie, a 21-year old economic sophomore, was elected to the post, replacing Jan A. Nevin, a 28-year-old marketing senior at Cal Poly.

The assembly was chartered this past year by the CSCSPA, of which Cal Poly, Pomona, is a member. It was organized to "represent the

students of the state colleges in academic affairs and to facilitate student representation on statewide policy-making bodies," according to Brodie. As chairman of the assembly Brodie will attend meetings of the Board of Trustees of the California State Colleges and the statewide Academic Senate.

The new chairman has been at Cal Poly for one quarter. He was honorably discharged from the U.S. Army in January, after serving 14 months in Germany. He attended Chaffey College in Alta Loma prior to serving in the Army. A graduate of Upland High School, Brodie is the son of Mr. and Mrs. Ian Brodie, 2438 San Antonio Crescent East, Upland.

Nevin, in addition to serving as assembly chairman, was Associated Students Attorney General at Cal Poly this year. He received the Outstanding Student Government Member award for 1967-68 for his activities. Nevin is the son of Mr. and Mrs. Bruce Nevin, 11909 Weddington, North Hollywood.

Real Estate Facts

TRADITION OF PROPERTY RIGHTS
By Milt Stone, president, Ontario-Upland Board of Realtors.
The right to own real estate and determine its use, and dispose of it, is so imbedded in our American tradition that it is surprising to reflect that ownership was not always so. The history of civilization in much of the world says, in fact, that more often the king or other ruler owned the land. He "loaned" it to his subjects for favors or revenue. He could repossess it at his whim.

This system produced Chinese warlords, the dukes, counts, earls, viscounts, and other titled lords in Europe's Middle Ages, the Incas and Aztecs of the Americas, and more recently, the Marxist doctrine of government control over land. Control over land is the ultimate source of power and is a sought-after political tool. It is the usual cause of war. It is such a powerful tool that the remarkable fact is not that individuals seldom have been able to own land, but that a system ever arose giving individuals that privilege.

In the Western world, the privilege grew out of the delegation of control by the kings to an aristocracy. The titled aristocracy, in turn, fortified their holdings, gave their subjects land in return for loyalty and fighting pledges, then fought the kings and each other. This so fragmented political power that the tradition of owning land by loyal subjects became possible, and did develop.

It also led to a common understanding of what rights the landowner had and what rights his "lord" had, a statement eventually formalized in 1689 in England as the Bill of Rights. The Bill of Rights is also the first 10 amendments to our United States Constitution.

In California, the older system of grants from the ruler and the new system of individual owners were superimposed on each other. The old land grants by the Spanish crown, usually to loyal soldiers, divided much of California into ranchos made up of thousands of acres, each with its hacienda headquarters, loyal subjects who helped

the patron operate and defend it, and supply and repair facilities. The famous missions of California were founded on the same principle, except that the chain of responsibility went to the church instead of directly to the Spanish crown. As settlers from the eastern United States came into California they brought with them the individualistic owner idea that had developed in England. Clashes of outlook were inevitable. Clashes of arms came next.

When the government of California became the responsibility of Washington and not Mexico City, the question of land ownership became tremendously entangled. Did a 200-acre section of land rightfully belong to a family who had owned it for 150 years, given to them by a patron? Or, since it did not have buildings on it and an American settler under American homestead laws claimed it, build a home on it, and defended it, was he the rightful owner?

Such snarls of title, and those considerably more complicated, became a reason for the growth of title companies in California. They insure a buyer against loss through legal action claiming another interpretation of who really owns the land. Title insurance is issued only after the title company has searched the records for legal transfers under American law and the facts surrounding the original change of ownership of the land when the United States acquired dominion. This requires voluminous records. Even with the records, what really happened might not be clear and ownership still could be challenged.

Whatever the judgment of such cases, it is done in a court of law, based on the individual's right to own and control land. It is not arbitrarily settled by a ruler who cuts through legal questions like a sword through butter and awards ownership because he likes the color of a man's eyes. That individual right of ownership of land, and the right to control it, was won after centuries of painful evolution of our political system. It is a reason why the Realtor is quick and outspoken against any attack on the individual's right to control and dispose of his own land.

\$4,470,368 Budget Okayed by Chaffey

ALTA LOMA — The Chaffey College tentative budget of \$4,470,368 for the next academic year has been adopted by the board of trustees.

The budget was nearly \$1 million less than that of the year just ending because of construction incurrences in the 1967-68 balance sheet. Last year's budget was \$5,314,484.

Current construction includes the \$600,000 instructional buildings and planetarium which are nearing completion and a \$500,000 student union expansion.

In earlier action, the Chaffey board resolved to hold to the present tax rate of \$4.89 per \$100 of assessed valuation.

The tax rate reflects a 2-mill reduction over that of 1966-67. Meeting for a final budget hearing was set for Aug. 6.

The Chaffey board, in other action Tuesday, approved the appointment of William A. Armstrong, Cal Poly audio visual coordinator, to conduct an inservice workshop Aug. 5-16. The purpose is to familiarize Chaffey faculty with the new Forum and Life Science instructional units.

Ontario World Farm Center Bill In Hands Of President First Y Camp In Session; Second Starts On July 9

WASHINGTON - Rep. Jerry Pettis, R - Loma, said a legislation endorsing a World Farm Center to be located near Ontario, Calif. was approved by the United States and sent to the President for his signature.

The San Bernardino County Congressman authored the Resolution which earlier was passed by members of the House of Representatives.

The World Farm Center, estimated to cost nearly \$60 million, would provide technical and commercial intelligence pertinent to the financing and sale of American agricultural products to meet projected world food shortages.

The concept has been promoted by scientists, engineers and businessmen for more than eight years. It will be built, managed and financed by pacesetters in agriculture at no cost to the government.

These will include farm organizations, manufacturers of equipment and food processing, Edge Act Chartered banks, Export-Import Bank and the World Bank.

Pettis said the center will include gathering, evaluating, and processing of computer knowledge required for development of world food production capability; centering of agri - business and banking services to deal with financing and marketing problems of producers; displaying and demonstrating production machines, tools, and technology vital to increased agricultural productivity.

Pettis pointed out the uniqueness of the World Farm Center is its free enterprise approach to a major world problem - human hunger.

Endorsement for the project has been received from many civic and government groups including the California State Legislature and the San Bernardino County Farm Bureau.

It is estimated that by 1980 the U.S. will have only about 200,000 dairy farms, producing sufficient milk for the population of that day through continued increased efficiency on the farm.

The first session of the Ontario-Upland Y.M.C.A. Day Camp opened June 24 with 62 boys enrolled and 12 leaders in charge of the program according to Dick Babington, Y Camp Director.

During this session the campers will enjoy athletics, archery, hiking and exploring at the Y's Men's Day Camp on Victoria St. in Etiwanda, swimming at the Upland High School pool, miniature golf, Knott's Berry Farm, Los Angeles County Museum, Newport Dunes, crafts, and gym program at the Y.M.C.A. building.

Dick Babington is the Camp Director; Jim Patzold, Midget Director; and Jerry Jones Gra-Y Director. The leaders include Doug Alair, Glenn Morrison, John Johnson, Tom Whitten, Joanne Peterson, Cris Clark, Wayne Cole, Sandra Dhyvetter, Nancy Evans, Nancy Harlow, Carol Mutrux, and Steve Shurtleff.

The second period Day Camp for boys 7 to 12 opens July 9, and the third period for boys 6 and 7 years old and girls 7 to 12 years opens July 23. Registrations for these two periods are still open and camps may sign up at the Y.M.C.A., 215 W. 'C' St., Ontario.

Boys and girls may sell butter toffee peanuts to help earn their fee. Peanut information may be obtained at the Y.M.C.A., 215 W. 'C' St., Ontario, according to Evron M. Karges, 'Y' Secretary in charge of peanut sales.

Veterans who drew compensation for service-connected disabilities rate 50 per cent or more are entitled to additional payments for their dependents, according to the Veterans Administration.

James L. Hardy New Chairman United Way

James L. Hardy has been named chairman of the United Way board for the Pomona Valley Area, succeeding Rex W. Warden.

The new volunteer position is a continuation of Hardy's service to the community. In 1964 Hardy became campaign chairman for the first United Crusade in Pomona Valley. The campaign under his leadership raised more money than had ever before been raised in the Pomona Valley area for charitable purposes. Pomona Valley also had the distinction that year of being the first area in all of Los Angeles County to achieve more than 100% of goal.

Since that time Hardy's service to the United Way/United Crusade has included campaign co-chairman in 1965-66; business division chairman in 1966 - 67 and vice-chairman of the area Board in 1967-68.

Hardy, partner in the firm of Case, Summers, Hardy & Co., received the Pomona Jaycees Distinguished Service Award in 1964. He had received the JC Presidential Award of honor in 1963-64 while he was JC first vice-president, as well as other JC awards.

The Hardys and children David, Michael, Lisa and Vanessa, make their home in Claremont.

Tomorrow Drive Like A CHP Is Following You

"Drive like you would if there was a California Highway Patrol car following along behind you." This was the advice given today by CHP Captain Vern F. Nicholson on the eve of the four-day Fourth of July holiday weekend.

"I'm just asking that drivers obey the traffic laws this weekend, particularly in regard to speed, yielding the right of way to the other driver, and staying on the right

side of the road.

"These are major rules of the road that, when broken, lead to accidents. Besides, if a driver consciously makes an effort to obey these laws he is not likely to violate any others, and his chances of getting into an accident-causing situation are reduced.

Captain Nicholson emphasized that accidents do not happen only to persons who are taking a long trip during the weekend.

"In most cases, the people involved are less than 25 miles from home, and on roadways they are well acquainted with," he said.

Pettis Battles For School Funds In SB County

WASHINGTON, D.C. - The House of Representatives voted 157 to 128 yesterday to restore \$138.8 million in education funds to the appropriation bill following an appeal by Rep. Jerry Pettis, R-Loma Linda.

The San Bernardino County Congressman led the floor fight in support of the amendment to the Supplemental Appropriations Bill for fiscal 1968-69.

The measure which was introduced by Rep. Patsy T. Mink, D-Hawaii, restored nearly \$4 million in funds to school districts in San Bernardino County.

Pettis said, "I believe there must be a limit to spending, but cuts in the education of our young people is not the place to start. Education must have first priority in government spending."

The 33rd District Representative said if the funds had not been restored, it would have necessitated higher taxes in communities where military bases are located or a cutback in educational programs.

Pettis described passage of the amendment as "the fair thing for the government to do" since the appropriation will enable children of military families to receive an adequate education in the county without an increase in taxes to those living in the district.

In his appeal to House members, the Congressman said, "Certainly the Federal Government should be willing to pay its fair share of the expense to educate children in those areas which are heavily concentrated with federal and military personnel, especially since these families are only temporarily located and subject to orders by the Federal Government to move at any moment."

Pettis said he will work with the California senators for passage of the appropriation bill as amended.

Labor Day To Climax Fair Awards

VICTORVILLE - Some will win a basket of prizes and some won't at the San Bernardino County Fair, but youngsters in both categories will have their day.

It will come with Labor Day and the special awards program--both of which traditionally wind up the fair's six-day run.

Future Farmers of America and 4-H youth who've harvested ribbons and trophies can cap them with even more awards. And those who haven't--but are still deserving--may be honored as well for their achievements.

Interested groups and individuals who will make the program possible at the 21st annual fair include:

Adelanto Grange No. 603, Apple Valley Grange No. 593, Del Rosa Grange No. 711, Hesperia Grange No. 682, Lucerne Valley Grange No. 673, Mojave Valley Pomona Grange No. 33, Muscovy Grange No. 589, Oro Grande Grange No. 592, Phelan Grange No. 607, Yucaipa Valley Grange No. 582, Chino Farm Bureau Center, California Beef Shorthorn Breeders' Assn., Holstein-Friesian Club of Southern California, Polle-ettes, San Bernardino County Dairy Herd Improvement Assn., Apple Valley Chamber of Commerce, Colton Chamber of Commerce, Hesperia Chamber of Commerce, Apple Valley Federated Women's Club, Desert Coin Prospector's Club, Victor Valley Federated Women's Club, Victor Valley Gem and Mineral Club, Victorville Lions Club, Kemper Campbell Ranch, Mr. and Mrs. Roger J. Hartwick, the Mark Rogers family, Chase Construction Co., Safeway Stores Inc., Standard Felt Co., Southern California Edison Co., Victorville Oil Co., and George D. Rendell.

Deadline Nearing For Fair Premiums

VICTORVILLE - Claim to the grandest array of premiums offered at the county fair will be taking shape soon in kitchens and sewing rooms across the county.

While Mom or Sis each are limited to one entry per section in the sweet-smelling home economics department, there are 117 sections in preserved foods-baking-confections and 170 chances to win in clothing-textiles!

Dads aren't barred, either.

"Some people enter dozens of things each year," says Mrs. J.E. Fullerton, chairman. Some "cake decorations" turn out to be county fair ribbons, she says.

Preserved foods include bottled juices, canned fruits and vegetables, pickles and relishes, jams, jellies, preserves, marmalades and butter. Baked goods can include breads, biscuits, rolls, layer cakes, loaf and pound cakes, cookies, pies and other pastries.

Clothing-textiles includes quilts, rag dolls, stuffed animals, throw rugs and purses as well as all types of clothing, bedspreads, table cloths, doilies and Afghans.

All entries must have been home-produced by a county resident within one year prior to the opening of the fair, Aug. 28. They will be on display all six days of the fair. Exhibits should be accurately labeled. Entry deadline is July 31.

Premium books, listing what's to be won, will be sent on request to the San Bernardino County Fair, PO Box 820, Victorville, Calif. 92392. ZIP code must be included.

Young Farmers Must Build Own Booths

VICTORVILLE - There's a message in the junior feature exhibits at the county fair and it's straight from the source.

Future Farmers of America and 4-H youth must design, build and install booths with only supervision from adult leaders. But they can pocket \$1,300 in winnings while they tell their story of agriculture and club activities. First-through-seventh place in each category brings \$60 to \$20.

Wrightwood Planning Celebration, Starts July 4

WRIGHTWOOD -- "Mr. Weatherman" Bill Keene, will be grand marshal for the parade highlighting Wrightwood's annual Mountaineer Days. The famous volunteer firemen's bar-b-que dinner will be but another of the many activities during the four-day celebration.

Tom Vrevich, Chamber of Commerce president, said there will be a turkey shoot, queen contest, beard contest, night street dance, all topped off on Sunday, July 7, by Wrightwood's biggest parade ever.

Parade Chairman Marge Bandimere told of the many communities that have entries in the parade: Torrance, Downey, and

Pasadena to name but a few. Following is the schedule of events for the full four days of fun:

July 4, Thursday: Turkey Shoot, all day. Queen contest, evening.

July 5, Friday: Street dance, evening.

July 6, Saturday: Famous firemen's bar-b-que. Games and contests.

July 7, Sunday: Wrightwood's annual 4th of July parade, 1:30 p.m.

Wrightwood lies at the 6000 foot mark high in the San Gabriel Mountains. Take the San Bernardino freeway to Highway #138, then to Highway #2 and on in to the village. Or, take the Antelope Valley freeway to Highway #138, to #2, into the town.

Machine Class Opening at Chaffey

ALTA LOMA -- There are still some openings for unemployed adults in the Chaffey College machine operators program.

With Fred Miller as instructor, the program at the Chaffey hangar at Ontario International Airport provides training for jobs at the entry level in shop production.

Eligible for training on a 20-week, 40-hour schedule are all unemployed adult males, including those entitled to government benefits and subsistence.

Job placement service will be available to qualified trainees receiving a Chaffey certificate of completion of the program. The program was developed through arrangements with the Inland Empire Employers Association.

Veterans who wish to take the course and receive government allowances for room and board should contact the VA office in the county building at Sixth St. and Mountain Ave., Ontario. They may obtain their certificate of eligibility at that source.

The program is structured on an eight-hour day.

Six hours are devoted daily to training in the use of hand tools, measuring tools and fundamental machine operation in a well-equipped shop. The other two hours are spent in basic mathematics and algebra, business English, reading and writing.

Mountains Big Holidays Attraction Rangers Anticipate A New Record

Forest Supervisor Don R. Bauer announced today that the mountain attractions of the San Bernardino National Forest were enjoyed by over 215,000 people last Memorial Day weekend. Although the fire danger was high, no man-caused fires were reported during the four-day holiday. Extra patrolmen were on duty on each of the five ranger districts to guide and assist

the weekend vacationers through the National Forest recreation areas. Favorite camping spots filled up early and stayed full throughout the weekend.

The Golden Eagle Passport, on sale at all Forest Service Ranger Stations, Supervisor's Headquarters and local businesses and Chambers of Commerce, is valid at many additional sites this

year. The Passport, a \$7.00 Federal Recreation Area Permit, admits the driver and all those in his car into any of 3,000 Federal recreation sites throughout California and the nation. All U.S. Fee Areas are clearly signed and the necessary entrance fees posted in large letters. The user fees are required by law. Notices of violation were issued this weekend to an

unfortunate few who ignored U.S. Fee Area requirements at designated sites. Persons violating or ignoring these requirements will be cited before the U.S. Commissioner. These regulations are simply to protect the vast majority of campers.

Several new National Forest recreation sites are being added to the growing list available to the public. Of these Boulder Basin campground in the San Jacinto Mountain Area is scheduled to be completed next summer. Hanna Flats Campground, two and one-half miles north of Fawnskin and in the Big Bear area, will have a new water and sanitation system by July of this year. The Jenks Lake area, scene of a major two-year expansion project, is on the drawing boards for completion in 1970.

It will feature improved swimming, fishing, and picnic facilities. The thirty-minute Hidden Cliffs Adventure Walk at Jenks Lake will be ready for use by July 1st.

All of these improvements are part of the San Bernardino National Forest's program to provide increased outdoor recreation opportunities to the people of Southern California seeking respite from the rigors of urban living.

Fire Danger Threatens Forests; No Fireworks on 4th;

Jack D. Burke, State Forest Ranger and County Fire Warden, points out that the Fourth of July Holiday is quickly approaching and reminds everyone that the possession and discharging of any fireworks in the County Area of San Bernardino is prohibited by Law. A few of the cities have legalized the so-called "safe and sane" fireworks; however, outside of these designated city areas all violators are subject to prosecution with a maximum sentence of six (6) months in jail and/or \$500.00 fine. Also, the violator could be held liable for suppression costs and the fire.

The California Division of Forestry, San Bernardino County Sheriff's Office, and the San Bernardino City Police Department will be ready to investigate, answer any complaints, and take appropriate action upon the illegal use of fireworks.

Already this year in San Bernardino County four people have been killed by explosions occurring where these fireworks are being manufactured. A similar catastrophe could occur at any of the retail fireworks stands.

Last year in San Bernardino County, and the cities within, some 70 fireworks fires occurred around the July 4th period.

Burke therefore urges that all parents carefully consider the buying and use of any type of fireworks. If you do buy fireworks, please be sure to use them in a legal area and in a safe manner. For those persons uncertain of the legal areas, please contact one of the following cities which allows the use of "safe and sane" fireworks: San Bernardino City, Fontana, Rialto and Chino.

Several public fireworks displays will be held throughout the County on July 4th. These will be operated for your enjoyment by a licensed fireworks technician.

Formal change of command ceremonies will be conducted on Sunday, July 14, at the 163rd Fighter Group base at Ontario International Airport.

The event will mark the first change in command of the unit since it was named the 163rd Fighter

He was named deputy commander for operations in August of 1965. Col. Bridge, a life-long resident of the West End, was also a World War II and Korean veteran. Elks Put Motor To Wheel Chair

Local Elks help out charities and the needy and contribute to medical rehabilitation to the tune of \$10,000 a year.

They have been doing such work quietly for years, but state officials of the fraternal order have authorized such work to be publicized now.

The local charity chairman is W. D. Evans. He and Merle Wooten, the leading knight called on Fern Fletcher recently with a check to pay for the motorizing of her wheel chair.

She is crippled and the only way for her to get from her home at 753 E. 6th St. to the store is by hand propelling her wheel chair.

Her situation was brought to

the attention of the Elks by her doctor's nurse.

Last month Edward (Al) Langlois, exalted ruler of the local Elks lodge, turned over a \$4,640 check to the president of the project.

The money will be used for the treatment of handicapped children, especially those afflicted with cerebral palsy. The treatment is conducted by 41 therapists employed by the Elks.

Also benefiting will be three hospital clinics which treat children with multiple handicaps and eye problems, the eye-testing of 15,000 preschool children a year and students and teachers studying therapy.

SACRAMENTO, CALIFORNIA... The first ticket for the "Mardi Gras de Mexico" Thaliana Celebrity Benefit Premiere was purchased by Governor Ronald Reagan from Beverly Hills socialite, Mrs. Alfred Stalford. The "Mardi Gras de Mexico" is an art and cultural trade exposition from Mexico, which will be presented nightly at Universal Studios Entertainment Center for six weeks, beginning with the Thaliana Benefit Premiere the night of July 18. Over 100 stars from the motion picture and television industry are expected to attend with their families, joining the typical Mexican entertainment for an evening of fun. All proceeds will go to the Thaliana Clinic for Emotionally Disturbed Children at Cedars-Sinai Medical Center.

REPLACE TUFTS IN BEDSPREADS

If your hobnail bedspread has some tufts missing but otherwise is in good condition, replace them by threading a small darning needle, double strand, with matching thread, pulling the needle through from the wrong side of the spread. Place a lead

pencil at the point where the thread came through the cloth to the right side. Then stitch over the pencil and back through the cloth, the required number of times, to make a tuft the same size as the others. Finish by fastening the thread on the wrong side. Remove the lead pencil and clip the loops that remain to form a tuft.

Teddy Roosevelt was elected 12 years AFTER we opened our doors...

It was the year 1892 when we first opened our doors, and Benjamin Harrison was president. Since then, thirteen presidents have held office, and Pomona First Federal has become the largest financial institution in the entire Inland Empire, with eight offices, nearly 50,000 account holders and approximately \$200 million in assets.

Buy Canadian Insurance For Your No. Trip

American motorists visiting Canada can now obtain a single card which is known as the Non-Resident Inter-Province Motor Vehicle Liability Insurance Card, which is evidence of financial responsibility. This card is pale yellow in color and is only available to American motorists through their own insurance companies.

NAC points out that although the yellow card is desirable for an American motorist doing any extensive traveling throughout Canada, it is not required in some provinces. Ontario, Manitoba, Alberta and British Columbia specifically exempt U.S. visitors from their laws requiring Evidence of Financial Responsibility, and therefore a card is not necessary if motoring only in these provinces.

PORCELAIN COLUMNS -- These porcelain supporting columns for 500,000 volt power circuit breakers are now in use at Southern California Edison's \$14 million Vincent Substation, one of the key terminal points for the extra high voltage (EHV) system, the second phase of which Edison recently completed as part of the Pacific Northwest-Southwest Power Intertie. Maintenance Electrician Keith Massey inspects one of the corona rings which distributes voltage stress across the porcelain insulating columns. Vincent Substation is located about five miles south of Palmdale in the Antelope Valley.

COME TO OUR BIG JULY FIESTA

FREE MEXICAN PIGGY BANKS

(SO NEW TO THIS COUNTRY THEY CAN'T EVEN SPEAK ENGLISH!!!)

It's Fiesta time at Claremont Savings, July 1 through July 10. All for fun. All for free. For example, these plump, pretty hand-painted piggies with a Latin accent. Crafted in the tradition of old Mexico, they're our thrift gift to you during this festive celebration. You can have one gratis without even saying gracias. (While quantities last.)

Surprises: Mexico is filled with pleasant surprises. And so are we during this biggest of all Fiestas. The piggies are only part of the party. There's more. So much more we have to keep much of it under our sombrero. That is, until you get here.

Double surprise: There will also be an extra special surprise for some visitor through the cooperation of Western Airlines, the "only way to fly" to Mexico City.

Discover Mexico: Visit the land of gay caballeros and dark-eyed señoritas.

Look who's helping us give you a guided tour: Aeronaves de Mexico, Western Airlines, Mexicana Airlines, the Mexican government and many others. They're all contributing to this exciting Mexican display. See hand-made pottery. Authentic artifacts. Mexican furniture. Colorful costumes. Listen to festive music. Pick up an armload of free, informative literature.

Be sure to visit us between July 1 and July 10. This is a Fiesta you'll never forget. Because we'll be sure you get something to remember us by.

Youths Sign-Up For Training As Carpenters In Coop Program

More than 60 San Bernardino-Riverside County high school graduates who were unable to obtain a college education have signed up for on-the-job training as carpenters.

Sponsored by general contractors and the unions in the construction industry, this special training is designed to qualify these young men as journeymen carpenters in four years. During the training period the young apprentice is paid for learning. He starts off at \$3.46 per hour.

By the time the apprentice carpenter is in his fourth year of training he is drawing \$5.77 per hour with the prospect of making \$6.50 per hour upon completion of the program. In addition, after only two months of on-the-job training he begins sharing in fringe benefits, vacation pay, a dental plan and a long range pension plan.

John L. Meek, coordinating director of apprenticeship committees of the Southern California Chapter of Associated General Contractors, said that this "learning on the job while earning

on the job" program in California leads the nation in the training of apprentices.

Sponsored jointly by the contractors and the unions, the carpenter program is also one of the most thorough, consisting of four years of study and on-the-job training.

And well it should, explains Meek, since the apprentice will make almost \$30,000 while training for trades craftsman.

Approximately 2,300 young men are now enrolled in the statewide program. About 908 of these are in training in the 11 Southern California counties.

The majority of the young apprentices are high school graduates ranging from 17 to 27 (also up to and including 33 years if honorably discharged) years of age. They are chosen on a non-discriminatory basis. Members of minority groups interested in making construction work their career are urged to enter the apprentice program. All they must do is pass a series of tests to determine their aptitude for the craft. These tests are devised by the national

carpenters apprenticeship council.

Once accepted, a carpenter apprentice must take a minimum of 144 hours of required adult Education classes each year in addition to his on-the-job training. The training is provided by contractors who hire the apprentices. A prescribed training course is set up by the apprenticeship committee which includes a fixed number of hours for all the varied jobs in the carpentry craft, Meek says.

Job and school achievement of each of the 2,300 carpenter apprentices in California is carefully supervised by a joint apprenticeship committee composed of members of contractor groups and the carpenters union plus state and school representatives. An attempt is made by the committee to coordinate school work with on-the-job training and courses are revised constantly to keep them up-to-date.

After successfully completing the training and education period, the young apprentice must pass a general examination before he is a qualified journeyman.

Hollywood Derby Saturday Draws Best 3-Year Olds

With many of the top three-year-old thoroughbreds of the country in prospect for the lineup, the \$100,000 added Hollywood Derby Saturday (July 6) at Hollywood Park looms as one of the biggest races of the year for horses of this age.

The Hollywood Derby will climax a big three-day holiday period of racing as it will be preceded on the Fourth of July by the \$50,000 American Handicap for three-year-olds and up at a mile and one-eighth on the grass and on Friday (July 5) by the Princess Stakes for three-year-old fillies at a mile and one-sixteenth on the turf.

Leading candidate appears to be William Haggin Perry's Dewar, who earned that role when he snapped back to his best form in the recent \$32,450 Caballero Stakes, closing with a devastating rush to nip American Tiger by a head. The final time of 1:40 3/5 for the mile and one-sixteenth is one of the fastest by a three-year-old in American turf history.

SERENADE TO A SENORITA . . . Pomona resident Karen Garcia is more amused than romanced by singing of 10-year-old John Van Norman. Both are patients at Orthopaedic Hospital, Los Angeles, largest non-profit medical center for orthopaedic disorders in southwestern United States. Youngsters like John and Karen, who are not sick in medical sense, but hospitalized for corrective orthopaedic treatment, often get together in corridors and lobby for songs, games, and talk to speed by hours during hospital stay. Twelve-year-old Karen is daughter of Mrs. Gisela Garcia, 1811 W. 9th St., Pomona.

'Cleo' Affords Young Law Students To Prepare Careers At Claremont

CLAREMONT -- Two Pomona College students are going to get their day in court in what may become a precedent-setting case, if CLEO has anything to say about it.

Roger Gama, 24, and James Gutierrez, 21, who were singled out in a long line-up of college students, will come before John Law this summer to stand trial -- not as criminals, but as two of forty students accepted into an unusual preparatory law school course for members of minority groups interested in becoming attorneys.

CLEO--the Council on Legal Education Opportunity--seeking to swell the number of attorneys representing minority groups, is jointly sponsoring the program with the University of California at Los Angeles, the University of Southern California, and the Loyola law schools. The council also is sponsoring the program this summer at Harvard University law school, Emory University school of law in Atlanta and the University of Denver college of law.

Gama, son of Maria Socorro Gama, Avenida Ferrocarril 38, Col. Industrial, Chihuahua, Mexico, and Gutierrez, son of Mr. and Mrs. Jesse C. Gutierrez, 11968 Yorba Ave., Chino, were selected for the summer program at UCLA. Applicants were chosen on the basis of their capacity for successful performance in law school.

The program, which began Monday, June 24, continues through Aug. 18. All tuition expenses, including room and board, is paid by the council. Each participant also receives \$10 a week for pocket money.

At the conclusion of the summer program most of the college graduates will be accepted at one of the three sponsoring schools. Gama, a summer candidate for graduation at Pomona College, will be eli-

gible for law school this year. Gutierrez, a senior at Pomona, will not be eligible until next year.

CLEO participants who go on to law school will receive substantial financial assistance. The Ford Foundation has granted \$450,000 to the council, all but \$50,000 of which will go toward scholarships. A group of businessmen, headed by Martin Stone, president of Monogram Industries, Inc., Los Angeles, gave UCLA \$13,500 for scholarships. The McCarthy Foundation of Los Angeles, the Beverly Hills Bar Assn., and the Rabinowitz Foundation added \$8,000. University Regents also are expected to make a substantial contribution.

National CLEO headquarters are at the University of Texas law school. Dr. Melvin D. Kennedy, a professor of history at Morehouse College in Atlanta, is executive director of CLEO, which was established by the Assn. of American Law Schools, the American Bar Assn., the National Bar Assn., and the Legal Services Program of the Office of Economic Opportunity.

Funds for the summer institutes have come from the Office of Economic Opportunity and the Department of Health, Education and Welfare. Grants will total \$392,352, of which the Los Angeles program will receive about \$85,000.

During the eight-week program, students will concentrate on such subjects as criminal law, constitutional law, and torts, private or civil wrongs by act or omission for which a civil suit can be brought, but not including breach of contract. Trips will be conducted to civil and criminal courts, law offices, police stations and Community Action Patrol headquarters.

Students will confer with policemen, judges, prosecutors, public de-

fenders, attorneys in general practice and community leaders, on the importance and the opportunities of law careers.

One of the major projects will be a moot trial in which participants will conduct court procedure from the beginning to the end of a lawsuit. Students will portray all the roles in the trial, which begins when the lawyer meets his client and ends with a final appeal after trial.

"Many students in the program probably will have been trained, not educated. They will have been taught to amass information, but not to analyze it. In law school the greatest emphasis is on analysis."

Some skepticism has been registered by minority students, who see the program as "tokenism" or who feel law degrees would not benefit them "since no good jobs would be available after graduation" and they would have "to return to the ghetto."

Others, such as Christopher Stone, a student recruiter, have a different feeling about the program.

"A good law school is going to demand that its students learn far more than the present set of statutes and rules that make up the legal order," Stone said. "And that's where the minority groups may have the edge."

"We continually ask students to raise and deal with the very sort of questions that some of our applicants from down and out neighborhoods seem to have been hearing all their lives:

"Does the law have to be the way it is now? Whose interests is the legal system serving? What basic values should the law be advancing?"

"Most middle-class students are not in the habit of asking these questions. With minorities it's a way of life."

Gama, who majored in

romance languages, was to begin teaching French and Spanish at Damien High School, La Verne, next fall, but feels this "introduction" to law may change his immediate plans.

Gama attended Roosevelt High School, where he was senior class president in 1962-63. At Pomona College he was a member of the Barrio Tutorial Project in 1964, and president of Sigma Tau fraternity in 1967. He played Rugby and football at Pomona College this year, earning the title All-League Player of the Year.

Gutierrez, senior class president at Pomona next fall, is majoring in government and plans on a career in law.

Gutierrez graduated from Chino High School in 1965. He is active in wrestling at the college.

Via Verde Homes Rec. Possibilities

A broad variety of recreational activities is located within ten miles of American Housing Guild homes at Via Verde, reports project manager, Jim Rorison.

New homeowners at the 1300-acre community in this area, adjacent to San Dimas and West Covina, find it easy to reach recreation spots throughout the San Gabriel Valley," notes Rorison.

There's fishing, boating and water-skiing at nearby Puddingstone Lake; recreation at the surrounding State Park and camping at Angeles National Forest, he added.

Via Verde Homes, AHG's recently opened development, has in addition to nearby recreation, an 18-hole golf course scheduled for completion by the end of 1968. Some 100 of the first 153 homes in the community are located on sites overlooking the golf-course fairways.

Five model homes are on display daily and can be reached from the San Bernardino Freeway, Via Verde turnoff.

VIA VERDE VISITORS - Some 10,000 people have visited American Housing Guild's new \$25 million golf-course community of homes in Via Verde. Unique putting green is a feature of the model home complex.

Sen. Whetmore Writes: 'Not Sponsor Firearms Measure'

I have a clipping from your paper of June 12, 1968, with an article headlined "Whetmore Sponsors Firearms Bill".

It is followed by an article which, of course, is perfectly proper, but I do wish to advise you that I have at no time sponsored any gun legislation nor do I expect to.

I am enclosing a copy of my position on the pending gun legislation and will appreciate anything you can do to correct the public impression given by your article that I am authoring legislation in this field accordingly.

Cordially,
James E. Whetmore
Senator, 35th District

Dear Constituent:

Thank you for your recent letter concerning gun legislation in California.

I share your concern over the disturbing increase in acts of violence within our society and I feel that we should all do everything possible to protect our citizens from violent or unlawful acts. Legislative bodies at all levels of government -- federal, state and local -- should be constantly alert to the needs of our society. I also feel, however, that we must guard against hasty and emotional reaction to singular events.

California today has rather stringent firearms regulations providing stiff penalties for persons who use or intend to use any firearm in a manner harmful or threatening to the life or property of another person. There are, however, two areas where our gun control laws could be improved. It seems to me that legislation making it more difficult to purchase guns by mail and legislation

preventing persons with known mental disorders or criminal tendencies from purchasing firearms would be advisable.

The basic problem of law violation, in my opinion, goes much deeper than the mere availability of firearms. It seems to me that many of our recent court decisions have been rather favorable to the law violator, and it also has been very difficult, as you know, to get the California Legislature in recent years to pass any anti-crime legislation. Often times it seems that the conduct of the policeman making the arrest is much more in question at the trial than the conduct of the criminal. There is, in my opinion, entirely too much sympathy for the criminal and too little for the victim. This has had a tendency to cause various elements of our population to believe that they can commit violent acts without being punished and, indeed, this has been the case in many instances.

There has also been an attitude on the part of many of our educators toward encouraging students who disagree with the law to violate it. This, too, is a major cause of many of our citizens toward violence and lawlessness.

Since drastic and sweeping prohibition against private ownership of firearms and registration of every kind of gun in existence will, therefore, not in the slightest result in a solution of the problems I have outlined above, it is my intention to vote against this sort of legislation. I intend instead to vote for legislation which will bring swift and sure punishment to the criminal and the removal of teach-

ers and professors who believe that one may disobey any law that one disagrees with.

I wish you to know that I appreciate very much your expressing your opinion to me, and that if I am in disagreement with your views, I have the greatest of respect for them and for you in having expressed them to me. Thank you again for having taken the time and trouble to write.

Cordially yours,
James E. Whetmore
Senator 35th District

OIA Asks \$12 Million For Improvements

Authority to issue \$410,000,000 in revenue bonds over the next five years for the development of the regional Los Angeles airport system was requested today by the Board of Airport Commissioners in a resolution forwarded to City Council.

The huge project which includes construction of new terminals, auto parking areas and roadways at Los Angeles and Ontario International Airports and acquisition of land for a new airport in the Palmdale area will be paid for by airport revenues, at no cost to the taxpayer, Louis Warschaw, commission president, stressed as he pointed out the urgent need to expedite the development program.

The revenue bonds will be sold at staged intervals through 1973 to cover the following major expenditures:

1. \$12,186,000, in addition to \$12,049,700 already allocated for Ontario International Airport, a total of \$24,235,700. This includes a new terminal, expanded auto parking, new runways and other landing field improvements.

You May Have Refund Due On Disability Insurance

California wage earners who may be entitled to refunds of 1967 disability insurance premium overpayments were reminded by Peter Weinberger, director of employment, that they must file such refund claims by July 1.

Persons who worked for two or more employers during the year may have had too much deducted because each employer, as required by law, made a withholding for disability insurance. If the wage earner's total deduction for this purpose exceeded \$74 for the year, he is entitled to a refund of the excess from the state.

More than 146,000 Californians applied for such refunds last year and received checks averaging \$25.55 for a total of \$3,745,698.37.

Such refunds, however,

are not automatic. Persons entitled to them must complete and file the necessary claim form with the Department of Employment, 800 Capitol Mall, Sacramento 95814, postmarked not later than July 1, 1968. This form may be obtained at any Department of Employment office, or by writing to the above Sacramento address.

If more than \$74 was deducted from a worker's wages for disability insurance because a business changed hands during the year, or because of error in making the deduction, then the worker should obtain his refund from his employer instead of the department.

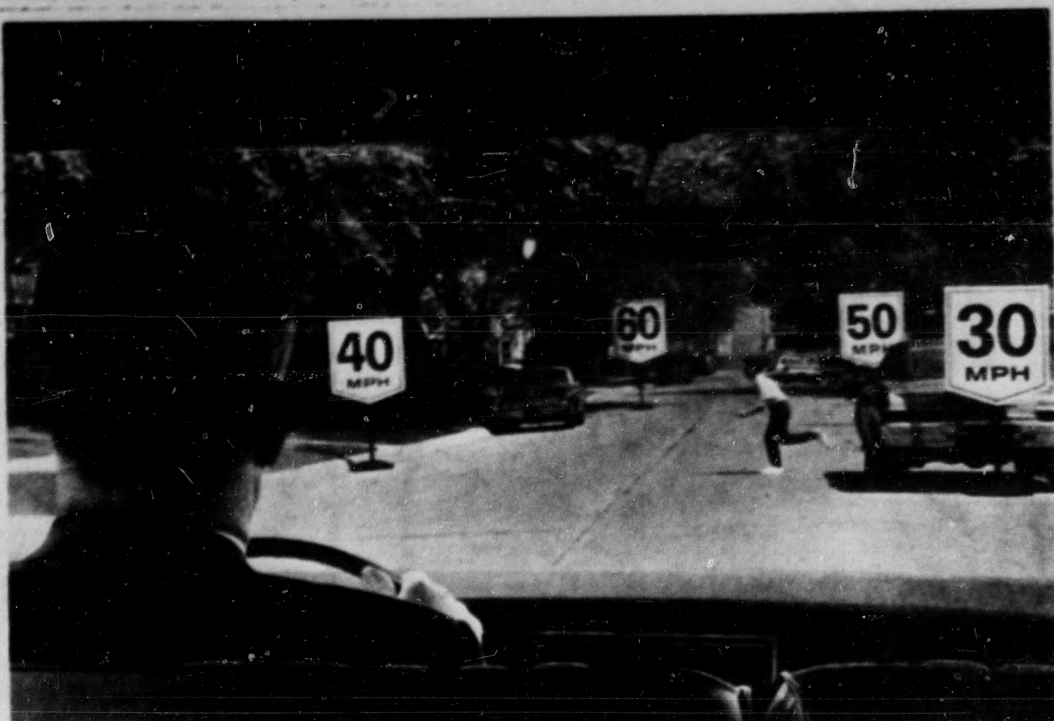

In such cases, the employer may in turn be reimbursed by the Department of Employment if he requests such reimbursement.

Carousel Dark Month of July

Announcement was made today by producers Sammy Lewis and Danny Dare that following the two-day appearance of Hip Hypnotist Pat Collins on June 28 and 29, the Carousel Theatre will be dark for a possible four weeks.

Negotiations are now under way for the appearance of a lineup of top stars at the West Covina theatre - in-the-round during July and August, and plans are being formulated for a Fall-Winter Season of musical revues, according to the producers.

The entire cost of California's disability insurance program is paid by employees. Employers pay the entire cost of unemployment insurance.

SCHOOL'S OUT! WATCH OUT FOR THE KIDS -- Chevrolet Motor Division has transformed the National Safety Council's driver reaction and vehicle stopping formulas into simple, visual arithmetic. Driving at 30 mph the normal stopping distance is 69-78 ft. At 40 mph the stopping distance is 108-124 ft. 50 mph is 160-186 ft. At 60 mph between 228 and 268 ft. are needed to bring the car to a straight-line stop on dry, level pavement. Remember -- school is out. Kids often run from behind parked cars in residential sections. Drive defensively and keep the speed-stopping figures firmly in mind.

Health Tips

a public service of

CALIFORNIA MEDICAL ASSOCIATION

In recent years, skin diving and scuba diving have won enthusiastic followers in California. To a limited extent, underwater exploration is an occupational activity, but most participants engage in it for recreation, adventure, and the conquest of new skills. And like most adventurous activities, it carries with it certain risks.

Skin divers rely for their air supply either on their own lungs or on air brought from the surface through a snorkel tube. Scuba diving, potentially a much more hazardous activity, involves carrying your own air supply in a Self-Contained Underwater Breathing Apparatus -- the initials of the phrase forming the coined word SCUBA.

The essential precautions which any scuba diver must observe are that he have the proper equipment, that his equipment be inspected regularly, and that he be properly trained -- preferably first in skin diving before he undertakes scuba. It is considered extremely unwise ever to engage in any underwater activities as a solo venture. The so-called "BUDDY" system in which divers operate in pairs, each one assuming responsibility for the other, can reduce many of the hazards, particularly those which result from panic and exhaustion.

Drowning, the most common cause of death in scuba diving, sometimes occurs because the diver has overestimated his capacity to navigate distances or has become entangled in kelp. Other mishaps, not always fatal, include the "squeeze," and the "bends." The squeeze, which results from unequal pressure on the air spaces of the body,

may damage the lungs, rupture an eardrum, or cause difficulty in the gastrointestinal tract, the sinuses, and the teeth.

The bends, which occur when nitrogen bubbles become trapped in the body's tissues, can be avoided by the diver who knows how long he must take to return to the surface if he has been at a certain depth for a certain period of time. The disorder, also known as Caisson Disease, manifests itself by symptoms ranging from tingling of the skin to extreme muscular pain and eventually to paralysis. A person with symptoms of the bends should be placed in a recompression chamber immediately. This means that scuba diving should never be done at a site where no recompression equipment is on hand. There are several recompression facilities from Santa Barbara south and in the San Francisco Bay Area, but none along the coast to the north.

The person who wants to derive full enjoyment from the pleasures of underwater activity needs not only skill, but maximum physical stamina. Top physical condition should be verified by annual medical examination. He must be trained to respond automatically to potentially dangerous situations, and should be able to recognize his own level of exhaustion and never push himself beyond it. The person with emotional stability has the makings of a better diver than the person who is rash or immature. Neither obesity nor alcoholism is compatible with diving, and even the moderate drinker should abstain from all alcohol for eight hours before diving.

Specific health problems will almost certainly be accentuated by the stress of underwater activity, and persons with certain acute or chronic illnesses should avoid this form of recreation.

The diver who does not wish to court disaster should have excellent coordination, good muscular control, alertness, endurance -- and an abundance of good sense.

'Some Big Fellows' In Lineup Of North-South Shrine Game

Player weights filed for publication in the official souvenir program disclose that the teams in the 17th annual North-South Shrine Football Classic, set for Memorial Coliseum in Los Angeles, Thursday evening, July 25, will be virtually even-strengthened.

The two squads should square off with little or no advantage in the tonnage department, unless the young all-stars have added big poundage since directing replies to questionnaires to the Shrine Football Office.

Managing Director Elmer P. Bromley, announced, "The overall team average shows the South at 202 and the North at 200."

On the line, the Northern crew averages 209 pounds per man, while the South contingent reports an average of 214. In the backfield, the invading Northerners tip the scales for a 188-pound average the South's 185.

Heaviest Northern star is Tackle Dick Osterkamp (Vallejo) at 230 on a 6-3 frame. Quarterbacks Gary Dushane (Mira Loma, Sacramento) and Mike Kloos (San Ramon, Danville) are the lightweights at 170.

For the South, the heavyweight champ is Tackle Charlie Doe (El Rancho) with his 245, 6-5 recordings, with Seaback Everett Marshall (Morningside, Inglewood) the lightest at 170.

Tickets for the mid-summer Charity Game—priced at \$5.00, \$3.00 and \$1.50—may be obtained at Shrine Football Office headquarters, 655 West Jefferson Blvd., Los Angeles (phone Richmond 9-0166), or through Shrine Clubs affiliated with Al Malaikah Temple. Net proceeds are earmarked for the Los Angeles unit, Shriners Hospitals for Crippled Children.

El Camino Real, Trip For Wanderers Of Road

From forest-covered oases to desert wonderlands, from majestic mountains to verdant valleys, El Camino Real passes through representative samples of them all. And those symbols of the hard, dedicated work the founders of California missions put into establishing their religion in the land, those bells of El Camino Real guide you to the remains of a memorable era in California history.

To understand the story of the bells, points out the National Automobile Club, you must first consider El Camino Real itself, fondly called "The King's Highway" but actually meaning "The Royal Road" in Spanish. After California became a part of Spain, plans for civilizing the area included not only the founding of missions but also of presidios or "garisons," and pueblos or "towns."

Out of these settlements rose quite a culture, romantic yet still rugged on the edges, a unique culture of that Old World charm spiced up by the new life, a culture complete with its own local color, springing up around that route of travel officially recognized by Spain: El Camino Real.

MISSION BELLS
 Now for the significance of the bells. For the padres, both the bell and the cross symbolized religion. All the way to California they brought these essentials with them, hanging the bells on trees, ringing them energetically to invite nomadic Indians to join the mission-building movement.

Camino Real, and got it. But they rejected the use of ostentatious, shiny material in making the bells, favored the use of iron, hoping to remind everyone of the iron will that characterized the men building our early California roads.

Senora la Reina de Los Angeles.
 In just a few years a total of 450 bells stood along the main road connecting the 21 missions. But decline set in, for vandals in modern times destroyed large segments of "The King's Highway," causing re-routing of the highway and neglect of the bells.

It's Fiesta Time At Claremont Savings, July 1-10

Pinatas and serapes, Aztec faces and free hand-painted Mexican piggy banks are only a few highlights in store for visitors to the colorful Mexican Fiesta slated for Claremont Savings, July 1 to 10, Robert C. Martens, vice-president and manager announced, today (Monday, June 24).

The piggy banks, made especially for Claremont Savings in a small village near Guadalajara, Mexico, are being given away through July 10, according

to Martens. They are a special "thrift gift" to all who visit the association during the Fiesta, he stated.

A feature of the Fiesta will be a free round-trip flight to Mexico City for any visitor who comes the closest to guessing the number of Mexican Jumping Beans in a giant jar.

Included in the objects to be seen will be dresses from various regions of Mexico, vases and pottery, peasant style

chairs, chests with beautiful ornate carvings, coffee tables and various other objects.

An art exhibit will also be part of the huge exhibition, featuring both paintings and black and white photographs.

In keeping with the festive occasion, according to Martens, staff members will wear sombreros and authentic Mexican music will be played throughout the period.

Those taking part in the exciting display of Mexican culture are the Padua Hills Theater and Jay Rodriguez, co-owner of The Barrister Restaurant, 500 W. 5th, Pomona. Rodriguez, long time resident of the area, is a regionally known authority on Mexican life, arts and culture.

Also assisting in the cultural exhibit are Aeronaives de Mexico, Mexicana Airlines, princess cruises and the Mexican government.

Drawings for free prizes will be held every hour. In addition, colorful and free educational literature also will be available to persons visiting the association.

Claremont Savings is located at 400 N. Indian Hill Blvd., Claremont, Calif.

New Facility To Aid Alcoholics In Area Schedules Open House

The Pioneer Alcoholics Recovery center, after seven years of diagnosis and treatment is now located in their new hospital setting. The beautiful new structure occupies a wing of the Olive Medical Center.

Pioneer Foundation is a non-profit community supported corporation established in an effort

to bring better understanding to those people with problems due to drinking.

The program provides public education and information consultations service to individuals and groups.

Pioneer draws on the community for professional supervision in fields of Psychiatry, Medicine, Sociology and Theology.

For example, Howard Clinebell, professor of pastoral counseling at the School of Theology at Claremont, serves as an advisor to Pioneer.

After diagnosis, a patient may begin a structured program, which includes detoxification if necessary and 320 hours of therapy with trained Counselors giving a comprehensive approach to the problem of excessive drinking.

Dr. Keith Barnnett is staff physician and visits the hospital every day. This is the first time Pioneer has had adequate resources for physical care of patients.

Pioneer referrals cover the broad area of

Los Angeles, Orange, San Bernardino and Riverside counties, from such sources as doctors, hospitals and industry.

The Pioneer Alumni Association is in charge of the open House Program.

The new facility is located on Culver Court, one half block west of Towne Avenue and one block south of Olive in South Pomona.

Kiwanis Benefit Dodger Outing

Dated, Aug. 5

To raise urgently needed funds for crippled and underprivileged children throughout the southland, Kiwanis will sponsor its 29th Annual benefit baseball game on Aug. 5 between the Los Angeles Dodgers and Pittsburgh Pirates.

Tickets for this National League game at regular Dodger Stadium prices are now available from Kiwanis clubs and members throughout the area. The name of your nearest Kiwanis club is available by calling 272-3400.

It is important that tickets for the event are obtained from Kiwanis, it was stressed by Game Chairman Hap Halligan of the sponsoring Kiwanis Crippled Children Foundation. He noted that funds to help needy children are raised only from tickets sold by Kiwanis.

Each participating Kiwanis club retains a portion of its ticket sale funds to use for youth projects within its individual community.

Help offered through Kiwanis includes medical and surgical treatment, orthopedic devices, crossed eye corrections and hospital bed costs. Expensive and long-term cases are handled through the Kiwanis Crippled Children Foundation of West Hollywood.

Recent benefit games have enabled Kiwanis to help some 200 youngsters per year, regardless of race, color or creed.

Bonelli Asks Strong Gun Legislation

Urging consideration of the strongest possible gun control laws for Los Angeles County, Supervisor Chairman Frank G. Bonelli called for detailed analysis of new gun control legislation adopted by the City and County of San Francisco and patterned after motor vehicle registrations.

"The San Francisco ordinance, from preliminary reports, appears to be sufficiently all-encompassing to cover registration, sales or gift of both new and used long-

and short-barreled guns, including registrations on sale of ammunition," Bonelli declared.

The County Counsel was instructed to review the draft of the San Francisco legislation with the Sheriff and District Attorney and to report back to the Board within two weeks with a model uniform ordinance for the County of Los Angeles and its cities.

After that, the supervisors indicated that they would call a public hearing before adopting any gun legislation.

PFF Shows 4 Per Cent Growth In '68

A four per cent growth in assets since the first of the year was reported by Pomona First Federal Savings and Loan Association.

Paul D. Walker, president, told the association's 43,000 depositors that during the first five months of the year assets rose \$7,305,310 and now stand at \$183,634,562.

Walker said Pomona First Federal Savings continues to be the largest Federally chartered savings and loan association in the eastern part of the county.

Earnings during the past five months also rose

sharply. They amounted to \$576,550 compared with \$56,761 a year ago. Walker said the increase was due to a reduction in operating expenses, reduction of interest payments, and increased loan activity.

The comparison was given before depreciation and taxes.

Walker pointed out that safety of investment was responsible for much of the growth of the association's assets and profits.

During the period, Walker said, 688 new loans for \$15,663,764 were made by the Association, bringing the dollar amount of the investments

to \$160,390,000.

A total of 1,971 new savings accounts were opened establishing a record in deposits which now total more than \$150 million.

The association's board of directors has paid a five per cent per annum dividend for the second quarter in excess of \$1,900,000, the largest in the association's 76 years, and has declared its intention to continue the same rate for the third quarter.

He said all eight offices of the association will hold open house July 1 to 10, including Saturday morning, July 6.

Benefits for Your Children

A recent change in the social security law liberalized the requirements which must be met for children to receive benefits on their deceased mother's account.

Prior to February 1968 social security benefits were paid on a deceased father's account to children under age 18, age 18 to 22 attending school full time or over age 18 but disabled prior to age 18, even though the father had no recent work under social security. Children were considered dependent on their deceased father when he had worked long enough under social security for benefits to be based on his account.

On the other hand, a deceased mother was required to have been employed for at least one-half of the 3 years prior to her death, or actually contributing one-half of the 3 years prior to her death, or actually contributing one-half of the child's support, for benefits to be paid to a child.

Starting February, 1968 a child may qualify for benefits on a deceased mother's account if the mother worked long enough under social security. No longer does the deceased mother need recent employment at the time of her death for her child to become eligible for benefits.

As a result of the change in the law many applicants previously disallowed can now qualify for benefits. However, the Social Security Administration did not keep a record of claims that were denied. Since a new application is needed it is important that persons previously denied children's benefits contact the nearest social security office.

The Social Security Office in Pomona is located at 445 E. Holt Avenue, and the telephone number is 986-2239. The office is open from 8:30 a.m. to 4:30 p.m. Monday through Friday. We are also open until 7:30 p.m. on Monday.

Nat'l. Mexican Rodeo In Arena This Week

Sun-tanned, tough-as-leather charros, the world's finest horsemen, will share the spotlight with the world's rarest breeds of horses in the National Mexican Rodeo, Thursday through Sunday, July 4-5-6-7, at the Los Angeles Sports Arena.

Under the direction of Tony Aguilar, handsome Mexican film star and singer, and his beautiful screen-star signing wife, Flor Silvestre, this internationally famous rodeo is distinctly unique.

Within two hours, it offers a complete horse show and the standard rodeo events. The horse show features Tony and Flor on performing horses, such as the famed Lipizzans from Austria, Andalusians from Spain, Pasos from Peru; bull-ringing trained Portuguese steeds, "schooled" Morgans and the noted Apaloozas, also from Spain.

The steely-eyed, fearless charros (Mexican cowboys), unlike their American counterparts, do not compete with the clock, such as an 8-second ride on a snorting, plunging bronc, but stay

with the steed until they signal to be taken off after an impressive display of raw courage and incredible endurance.

Tickets at \$4, \$3, and \$2, with children at half price, are on sale at the Arena box-office, Mutual agencies and Wallich's Music City stores.

Improvement And Buying Census Project

A sample of families and households in this area will be included during July in a nationwide survey of home repairs and buying plans, according to Leonard C. Isley, Director of the Census Bureau's regional office in Los Angeles.

Census Bureau representatives will visit each home chosen for the Quarterly Household Survey, and will inquire about any plans to buy a house, car or major household appliance during the next year. Questions about home re-

pairs and alterations will concern those made during the past three months or planned for the near future.

The Census Bureau conducts surveys of buying expectations and home repairs every three months, and these surveys are important guides to the growth of the national economy. The Bureau points out that houses, repairs, appliances and cars account for a substantial share of the more than \$500 billion which consumers spend each year. The survey provides both a current measure of the amount of consumer spending on these items and advance information about future trends in spending. The advance information provided by consumers has been very accurate to date. For example, on the basis of surveys late in 1967 and early in 1968 the Census Bureau has forecast 8.9 million new car sales for all of 1968. The number of new car sales forecast for the first six months of 1968 was nearly identical to the number actually sold.

Answers given by all families and households in the survey are confidential, and are protected by Federal law.

Trainer Relates Elephants Alert, Responsive

According to Casey Gibbs, whose Ponderous Pachyderms are one of the hits of James Hetzer's Intercontinental Circus, currently playing its first West Coast engagement in Melodyland Theatre, elephants give their trainers no cause for alarm while they are performing.

In spite of their traditional long memories, the huge animals never take their eyes off their trainers while in the ring, responding minutely to every

voice and hand signal throughout their act.

Gibbs' huge beasts, each of whom weigh well over 4,000 pounds, are in the prime of pachyderm life, between 25 and 40 years of age, which is old enough to give them maximum size but young enough to be so agile that they can perform hind-leg walks, headstands and the other difficult tricks they have been taught with seeming ease.

During their off-hours the ponderous pets are fun

loving, indulging in practical jokes on one another. One of their favorite jokes is for one of them to blast a trunkful of water into a nearby playmate, then turn away innocently with eyes closed, feigning sleep.

Hetzer's Intercontinental Circus will continue to play at Melodyland, Wednesdays through Sundays, through July 14. Performances are presented at Wednesdays at 1 and 8 p.m., Thursdays and Fridays at 8, Satur-

days at 3 and 8, and Sundays at 1 and 5 p.m. Juniors (16 years and under) are admitted for half-price at both Wednesday shows, on Thursday evening and at the 5 p.m. show on Sunday. Tickets are now available at Melodyland boxoffice and all theater ticket agencies.

NEWARK, CALIF., ARGUS: "We are taxed in our bread and our wine, in our income and our investments, on our land and our property, not only for those creatures who do not deserve the name of men, but for foreign nations, for complainant nations who will bow to us and accept our largess and promise to assist us in the keeping of the peace -- these mendicant nations who will destroy us when we show a moment of weakness or our treasury is bare, and surely it is becoming bare . . . 'Now who was it said that? Must have been some member of the U. S. Senate for it fits exactly what has been going on in Washington. No, the orator was Cicero of ancient Rome -- The Rome that fell as a result of corruption at home and over-extension abroad.'"

NEW FACILITY -- Autonetics' new million-square-foot Laguna Niguel Facility steps majestically up Orange County hillsides in architect's rendering. The space-age term "megastructure" is borrowed to describe size of the building, believed to be the biggest single plant in the electronics industry. Single-unit, seven-story building will house 7,500 employees. Construction begins in October with completion set for late 1969.

CANYON LODGE -- CANYON LODGE, a \$550,000 installation, built on a land point at Canyon Lake, is designed by the architectural firm of Grillias, Savage, Alves, and Lau of Santa Ana. It is designed in the early California tradition. It will house a restaurant, cocktail lounge, game room for billiards, ping-pong and cards, and there will be a multi-purpose room for social events and meetings of community residents.

TOP-FLIGHT GOLF AT VIA VERDE -- Harry Lasky, president, American Housing Guild's Los Angeles Division, holds "19th hole" flag for vice president, Fred Sattas as the AHG executives try out the unique putting green in model complex of their new \$25 million community in Via Verde. Some 100 custom homesites overlook the fairways of the Via Verde 18-hole golf course which is scheduled for completion by the end of 1968. Five model homes are now on view offered in 13 different elevations and priced from \$26,900. The community can be reached by taking the San Bernardino Freeway to the Via Verde turnoff; then north, crossing under the freeway for a few hundred yards to signs pointing the way to the model compound.
